

Finly

An interactive AI guide for museums and exhibitions

What it is

A customizable animated AI character that speaks with visitors through text and voice.

Why it matters

Finly turns a passive screen into a conversational visitor experience.

Features

- Custom character and voice
- Text and voice interaction
- Real-time browser streaming
- Museum-specific knowledge
- Local or hosted deployment
- Custom branding and personality

Possible applications

- Museums
- Aquariums
- Science centres
- Galleries
- Visitor centres
- Schools
- Events and branded installations

Available as

- Prototype demonstration
- Custom pilot installation
- Full exhibition deployment
- Maintenance and support
